(last update October 2015)

Conference proceedings

Modeling the Geometry of a Mineral Deposit Domain with a Potential Field

Presented at APCOM 2013 - Porto Alegre, Brazil - Nov. 2013

D. Renard (Centre of Geosciences and Geoengineering, Mines ParisTech), **L. Wagner** (Geovariances), J.-P. Chilès (Centre of Geosciences and Geoengineering, Mines ParisTech), J. Deraisme (Geovariances), R. Jahoda (AngloGold Ashanti), J. Vann (AngloGold Ashanti)

Geostatistical filtering of 4D seismic data: methods and benefit

Presented at SBGf 2013 - Rio de Janeiro

R. Meunier (Geovariances), M. Bourges (Geovariances), H. Binet (Geovariances), N. Jeannée (Geovariances), **L. Wagner** (Geovariances), D. Renard (Mines ParisTech, France)

Implicit 3D Model building from remote sensing and sparse field data. Application to the La Popa Basin, Mexico

in: Proc. 28th Gocad Meeting, Nancy

Guillaume Caumon, Christophe Antoine, Christian Le Carlier de Veslud, Marc-Olivier Titeux, Gary G. Gray, Jeanne Pellerin, Claire Castagnac, Nicolas Cherpeau, Claude Cavelius, Florent Lallier and **Laurent Wagner**.
