

ISATIS & MINESTIS WORKSHOPS // AGENDA

You are welcome to join us for this free 1-day event dedicated to our software solutions for the Mining Industry. You can attend the morning session (with or without lunch), the afternoon session, or all day. It's up to you. Whatever your choice, please confirm your venue by Friday, the 19th of October at the latest at isatelle@geovariances.com.

MORNING // LEARN HOW TO USE ADVANCED GEOSTATISTICS WITH ISATIS //

- 8:30 am** **Welcome**
- 8:45 am Presentation of Geovariances
By Jean-Paul Roux – CEO of Geovariances
- 9:00 am Mineral Resource Categorization: current issues, best practice and easy-to-run tools in Isatis (with a demo of Conditional simulations and Spatial Sampling Density Variance)
By Flavie Isatelle – Geovariances Senior Mining Consultant
- 9:45 am How to use datasets with different qualities in mineral resource estimation? (with a demo of Kriging with Variance of Measurement Error)
By David Barry – Geovariances Senior Consultant
- 10:30 am** **Coffee break**
- 10:45 am How to estimate non-stationary variables with the help of auxiliary data? (with a demo of Kriging with external drift)
By Flavie Isatelle – Geovariances Senior Mining Consultant
- 11:30 pm Q&A
- 12:00 pm** **Finger food buffet**

AFTERNOON // LEARN HOW TO USE MINESTIS 2018 NEW FEATURES //

- 1:15 pm** **Welcome**
- 1:30 pm Presentation of Geovariances
By Jean-Paul Roux – CEO of Geovariances
- 1:45 pm Minestis: the software *par excellence* for Mineral Resource Estimation; from EDA to Mineral Resource Categorization
By Marion Barré – Geovariances Product Manager
- 2:45 pm Sample clustering: a powerful algorithm to create estimation units
By Marion Barré – Geovariances Product Manager
- 3:15 pm** **Coffee break**
- 3:30 pm 2-Dimensional case study
By Marion Barré – Geovariances Product Manager
- 3:50 pm Ore Control case study
By Marion Barré – Geovariances Product Manager
- 4:10 pm Q&A
- 4:30 pm** **End of the workshop**

~ The program may change according to the audience ~
