LIST OF PUBLICATIONS

Last update: March 2019

Selection of refereed journals and conference proceedings

D.W. Barry and *P.D. Drummond* (2008) *Qubit phase-space: $SU(n)$ coherent state P -representations*, *Physical Review A*, 78, 052108 (2008). Also available at <https://arxiv.org/abs/0808.2226>.

Oral communications during conferences

C Mawdesley, **D Barry**, *O Bertoli* and *R Saha* (2017) *Local uncertainty benchmarking – a coal case study*, in *Proceedings Tenth International Mining Geology Conference 2017*, pp 43–50.

R. Saha and **D. Barry** (2017) *Predicting Short Term Uncertainty for Coal Quality Parameters*, *International Association for Mathematical Geosciences Conference 2017*.
