## LIST OF PUBLICATIONS

Last update: March 2019

### Selection of refereed journals and conference proceedings

*J-M. Chautru, R. Meunier, H. Binet, M. Bourges (2015) Use of connection constraints for checking and enhancing geological models. In Bulletin of Canadian Petroleum Geology, Volume 63, Number 4, Dec. 2015, pp. 358-373.*

*J-M. Chautru, H. Binet, M. Bourges, R. Meunier (2014) Conditioning Static Models with Connectivity Information. EAGE 2014, Amsterdam.*

### Oral communications during conferences

*J-M. Chautru, H. Binet, M. Bourges (2017) Combining seismic and petrophysics to improve facies proportions modeling. 79th EAGE Conference and Exhibition 2017.*

*R. Meunier, M. Bourges, H. Binet, N. Jeannée, L. Wagner and D. Renard (2013) Geostatistical filtering of 4D seismic data: methods and benefits, 13th International Congress of the Brazilian Geophysical Society, SBGF, Rio, 2013.*

*R. Meunier, M. Bourges (2013) Model-derived uncertainties or uncertainty about models? Poster presented at the Conference "Capturing Uncertainty in Geomodels - Best Practices and Pitfalls" by the Petroleum Group of the Geological Society - Aberdeen., Dec. 2013*

### Posters during conferences

*J.M. Chautru, T. Romary, M. Bourges, H. Binet, Geovariances, Mines, ParisTec, Geostatistical Electrofacies calculation in non-stationary cases. EAGE 2019*

*J-M. Chautru, R. Meunier, H. Binet, M. Bourges (2015) Geobodies Stochastic Analysis for Geological Model Parameter Inference. Petroleum Geostatistics 2015*

*M. Bourges, J. Deraisme, J.L. Mari (2010), Geostatistical Filtering of Refraction Data: Methods and Comparison of Acquisition Systems, 72nd Annual Meeting and Technical Conference, EAGE, Barcelona 2010.*

C. Magneron, N. Jeannée, **M. Bourges** (2009), *Noise reduction by M-factorial kriging*, 11th International Congress of the Brazilian Geophysical Society, SBGF, Bahia, 2009.

**Geovariances**  
Where no one has gone before
